

What is Household Hazardous Waste (HHW)?

Household products that can present a hazard to our health and our environment when not properly used, stored, and disposed of, are considered Household Hazardous Waste.

The Redwood County HHW Facility accepts hazardous materials from both Redwood and Renville County residents for **NO CHARGE**. **Business waste cannot be accepted.**

Transporting HHW

- Keep products in their original containers
- Do not mix products
- Make sure lids are sealed tightly
- Label materials if original label is missing or unreadable
- Keep flammables out of direct sunlight and away from sources of heat, spark, flame, or ignition

Facility Location

The HHW Facility is north of the Transfer/Recycling Facility (RRRMRF) — on the west edge of Redwood Falls.

Frequently Asked Questions:

- **Do you take tires?** No, please return them to a tire retailer.
- **What if my paint cans are empty?** If they are completely empty, recycle them if steel. If the cans are plastic, throw in the garbage.
- **My paint cans have paint, but its dried, what do I do?** Throw the can in MSW, if you have scheduled garbage pick-up.
- **What should I do with my alkaline batteries?** If they are not rechargeable, throw them in the garbage. Rechargeable and button batteries must be disposed of at the HHW Facility. **We do not accept automotive batteries.**
- **I live in Redwood Falls and have bulbs to dispose of, can I bring them to you?** You may take your fluorescent and LED bulbs to the Redwood Falls City Office (public utilities).
- **If my aerosol cans are empty, do they need to go to HHW?** No, if your aerosol cans are completely empty and the caps and nozzles have been removed, they can be recycled along with your other steel cans.
- **Why are nail polish and nail polish remover considered hazardous?** These items contain chemicals that are either toxic or flammable and they must be disposed of properly.
